

TMF14

Main Specifications

Mast

Mast type	CF140
Total length mm	5 400
Feed motion length mm	3 435
Feed shifting length mm	1 000 - 1 200

Rollover

Rollover type	360 °
Tip cylinder	No
Power tilt	Option
Connecting plate	Adaptator plate depending excavator model (on request)
Quick coupler plate	Depending on required model (on request)

Drifter

Drifter model	HD2002/HD2004-105
Rotative model	-
Retraction force kN	20
Max torque Nm	2 200 - 2 900
Max speed rpm	300 - 144

Radio remote control	Yes
Radio remote with pressure indicators	Option
Suggested excavator	Min 15T
Mounting type	Adaptator plate

Clamping

Clamping type	Clamping & Breaking
Clamping range	50 - 200
Clamping force N	96 200
Loosening torque Nm	27 000
Key of loosening	Option

Hydraulic requirements

Oil requirements l/min	135 - 170
Operating pressure bar	230

Drilling operations

Case drilling mm	< 114
Rock drilling` diameter mm	38 - 76
DTH drilling diameter mm	150
Self Anchor	R32-R38 / R51-R76
Drilling diameter mm	38 - 130
Injection access	Yes

Dimensions

Weight Kg (without safety cage)	1 550
Total Width mm	1 300
Total Length mm	5 400
Total Height mm	1 200
