

TMF20

Main Specifications

Mast

Mast type	CF200
Total length mm	5 700
Feed motion length mm	3 800
Feed shifting length mm	1 500

Rollover

Rollover type	360 °
Tip cylinder	No
Power tilt	Option
Connecting plate	Adaptator plate depending excavator model (on request)
Quick coupler plate	Depending on required model (on request)

Drifter

Drifter model	HD4010/RH800
Rotative model	-
Retraction force kN	50
Max torque Nm	11 000
Max speed rpm	248

Radio remote control	Yes
Radio remote with pressure indicators	Option
Suggested excavator	Min 30T
Mounting type	Adaptator plate

Clamping

Clamping type	Clamping & Breaking
Clamping range	60 - 360
Clamping force N	256 500
Loosening torque Nm	92 800
Key of loosening	Option

Hydraulic requirements

Oil requirements l/min	280 - 190
Operating pressure bar	230

Drilling operations

Case drilling mm	< 152
Rock drilling` diameter mm	76 - 89
DTH drilling diameter mm	> 150
Self Anchor	R51-R76 - T114
Drilling diameter mm	100 - 160
Injection access	Yes

Dimensions

Weight Kg (without safety cage)	2 900
Total Width mm	1 400
Total Length mm	5 700
Total Height mm	1 700
